

B71GMX2

Cooker size	70x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709329181
Energy efficiency class	A

Aesthetics

Design	Square design	Type of control setting hob	Control knobs
Command panel finish	Finger friendly stainless steel	Type of control knobs	Smeg Master Black
Aesthetic	Classica	Controls colour	Black
Logo	Assembled st/steel	No. of controls	8
Colour	Stainless steel	Serigraphy colour	Black
Logo position	Facia below the oven	Door	With 2 horizontal strips
Finishing	Satin	Glass type	Black
Upstand	Yes	Handle	Smeg Classic
Series	Master	Handle Colour	Brushed stainless steel
Hob colour	Stainless steel	Feet color	Silver
Type of pan stands	Cast Iron		

Programs / Functions main oven

Cleaning functions

Hob technical features

Total no. of cook zones 5

Front left - Gas - AUX - 1.00 kW

Rear left - Gas - Semi Rapid - 1.80 kW

Central - Gas - UR - 4.20 kW

Rear right - Gas - Semi Rapid - 1.80 kW

Front right - Gas - AUX - 1.00 kW

Type of gas burners Standard

Automatic electronic ignition Yes

Gas safety valves Yes

Burner caps Matt black enamelled

Main Oven Technical Features

Fan number 1

Net volume of the cavity 70 l

Gross volume, 1st cavity 79 l

Cavity material Ever Clean enamel

No. of shelves 5

Type of shelves Metal racks

Light type Halogen

Light Power 40 W

Cooking time setting Contaminuti + fine cottura

Light when oven door is open Yes

Door opening Flap down

Removable door Yes

Full glass inner door Yes

Removable inner door Yes

Total no. of door glasses 3

No. of thermo-reflective door glasses 2

Safety Thermostat Yes

Cooling system Tangential

Usable cavity space dimensions (HxWxD) 360X460X425 mm

Temperature control Electro-mechanical

Lower heating element power 1200 W

Upper heating element - Power 1000 W

Grill element 1700 W

Large grill - Power 2700 W

Circular heating element - Power 2000 W

Grill type Electric

Options Main Oven

End of cooking acoustic alarm Yes

Maximum temperature 260 °C

Minimum Temperature 50 °C

Accessories included for Main Oven & Hob

Moka stand	1	40mm deep tray	1
-------------------	---	-----------------------	---

Rack with back and side 1
stop

Electrical Connection

Electrical connection rating	3000 W	Power supply cable length	115 cm
Current	13 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	3 poles
Electric cable	Installed, Single phase	Plug	Not present

Compatible Accessories

AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

BNP608T

Teflon-coated tray, 8 mm depth, to be placed on the grid

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KITPBX

Height reduction feet (850mm), st/steel, for Sinfonia and Master cookers (845-856mm)

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KITC7X

Splashback, 70cm, stainless steel, suitable for Master and Sinfonia cookers

SFLK1

Child lock

WOKGHU

Cast iron WOK Support

Symbols glossary

	Energy efficiency class A		Heavy duty cast iron pan stands: for maximum stability and strength.
	Installation in column: Installation in column.		Air cooling system: to ensure a safe surface temperatures.
	Triple glazed doors: Number of glazed doors.		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
	Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.		Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
	ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.
	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.		Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

	Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.		Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
	Side lights: Two opposing side lights increase visibility inside the oven.		Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.
	The oven cavity has 5 different cooking levels.		Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.
	Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.		The capacity indicates the amount of usable space in the oven cavity in litres.
	Knobs control
