|                                                                                  |                                                                                                                                            |                                                                                   |                                                                                                                                                          |
|----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | 4 stars freezing compartment for better food preservation.                                                                                 |  | A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.         |
|  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.            |  | Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.               |
|  | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge. |  | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.                      |
|  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.                      |  | Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption. |
|  | Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.              |  | Energy efficiency class D                                                                                                                                |
