

**Product fiche concerning the Commission Delegated Regulation (EU) No 65/2014 of 1 October 2013 and COMMISSION REGULATION (EU) No 66/2014 of 14 January 2014**

|                                                                                     |                  |
|-------------------------------------------------------------------------------------|------------------|
| Supplier name or brand                                                              | SMEG             |
| Product code                                                                        | TR4110GR         |
| Energy class first cavity (2002/40/CE)                                              | A                |
| No. of Cavities                                                                     | 2                |
| Energy efficiency index                                                             | 95.1             |
| Energy efficiency class                                                             | A                |
| Energy consumption per cycle in conventional mode                                   | 0.95 kWh         |
| Energy consumption per cycle in fan-forced mode                                     | 0.77 kWh         |
| GAS - Energy consumption conventional mode                                          | 3.42 MJ          |
| GAS - Energy consumption in forced air convection                                   | 2.77 MJ          |
| Heat source first cavity                                                            | ELECTRICITY      |
| Volume                                                                              | 61 l             |
| Energy Efficiency Index, second cavity                                              | 104.9            |
| Energy efficiency class, second cavity                                              | A                |
| Energy consumption per cycle in the forced convection of the second cavity          | 0.95 kWh         |
| Energy consumption per cycle in the forced convection of the second cavity          | 0.85 kWh         |
| Gas - Energy consumption per cycle in natural convection in the second furnace      | 3.42 MJ          |
| Gas - Energy consumption per cycle in convection of forced air in the second cavity | 3.06 MJ          |
| Heat source second cavity                                                           | ELECTRICITY      |
| Volume, second cavity                                                               | 61 l             |
| Product mass                                                                        | 128.400 kg       |
| Type of hob                                                                         | Gas              |
| No. of cooking zones/areas and/or gas burners                                       | 7                |
| Position zone 1                                                                     | Left             |
| Position zone 2                                                                     | Front left       |
| Position zone 3                                                                     | Rear left        |
| Position zone 4                                                                     | Front centre     |
| Position zone 5                                                                     | Rear centre      |
| Position zone 6                                                                     | Front right      |
| Position zone 7                                                                     | Rear right       |
| Heating technology zone 1                                                           | Gas - 2UR (dual) |
| Heating technology zone 2                                                           | Gas - AUX        |
| Heating technology zone 3                                                           | Gas - Rapid      |

Tuesday, 25 August 2026

|                           |                  |
|---------------------------|------------------|
| Heating technology zone 4 | Gas - Rapid      |
| Heating technology zone 5 | Gas - AUX        |
| Heating technology zone 6 | Gas - Semi Rapid |
| Heating technology zone 7 | Gas - Semi Rapid |
| EE zone 1                 | 55.9             |
| EE zone 2                 | 0                |
| EE zone 3                 | 54.3             |
| EE zone 4                 | 54.3             |
| EE zone 5                 | 0                |
| EE zone 6                 | 55.6             |
| EE zone 7                 | 55.6             |
| EE hob                    | 55.1             |
